uPVC Solvent Weld Plumbing System

for Cold Water applications

ASTM Sch 40 & Sch 80

NATIONAL AWARD WINNER

lead-free

INTRODUCTION

Ashirvad Pipes Pvt. Ltd. - Bangalore is an ISO 9001 : 2008 company with over 30 years of experience in the PVC pipe industry.

Ashirvad Aqualife is a Lead Free, ASTM PVC solvent weld plumbing system available in sizes from 1/2" to 4". Ashirvad Aqualife pipe and fittings assures and adheres to the highest international standards for potable (drinking) water supply.

PVC is one of the Specified thermoplastic for piping system components, including valves, fittings, flanges and many speciality products. PVC has excellent chemical and corrosion resistance to a broad range of fluids.

Class of Pipe/ Fitting	Standard	Sizes Available
Sch 40 Pipe	ASTM D 1785	1/2" - 4"
Sch 80 Pipe	ASTM D 1785	1/2" - 4"
Sch 40 Fitting	ASTM D 2466	1/2" - 4"
Sch 80 Fitting	ASTM D 2467	1/2" - 4"

ADVANTAGES OF ASHIRVAD AQUALIFE

- LEAD FREE
- UV RESISTANT
- FIRE RESISTANT
- EASY TO INSTALL
- DURABLE
- COST EFFECTIVE
- ENVIRONMENTAL IMPACT
- LOW MAINTENANCE

Why Lead free ?

Lead free plumbing system is most favoured for potable water transportation worldwide.

Why U.V. Resistant ?

U.V Resistance prevents the oxidation process and helps to increase the durability of pipes and fittings.

How Easy to Install ?

Ashirvad Aqualife pipes and fittings are lightweight - reducing transportation, handling, and installation costs. They require no special tools for cutting. The jointing of these pipes is simple and a One step solvent cement is required providing a 100 % leak proof joint.

How is it fire resistant ?

Ashirvad Aqualife pipes and fittings are self-extinguishing and do not support combustion.

How is it Maintenance - free ?

Ashirvad Aqualife pipes and fittings systems do not rust, pit, scale, corrode, or promote build-up on the system interior. Years of trouble-free service can be expected.

How is it Cost Effective ?

Ashirvad Aqualife pipes and fittings are light in weight. They not only save on the material cost but also the installation costs.

WHY ASHIRVAD AQUALIFE uPVC PIPES ?

Self Alignment System

For correct alignment of fittings with pipes during fitment. Fittings have an alignment mark which is to be matched with the blue stripe on the pipe during the fitment process. This is to ensure that in the concealed installations, the water outlet fittings are perpendicular to the wall surface & to avoid any repair, breakage, etc. after the wall finishing has been completed. This system ensures a perpendicular and correct fit each time.

Ashirvad Aqualife uPVC pipes & fittings are made with special lead free compound to ensure conformity to the latest requirements in the developed nations. the lead free compound is non-toxic and safe for drinking water purposes.

Ashirvad Aqualife plumbing system has a pressure bearing capacity twice than that of the threaded pipe.

Easy & 100% leakproof installation

ASHIRVAD AQUALIFE SOLVENT CEMENT

- Is a one step fast setting solvent cement.
- No electric / heat source for joining required

Ashirvad Aqualife Pipes and Fittings have excellent chemical resistance and can withstand salty and aggressive water condition with variations in PH value of water flowing through it. This eliminates both electrolytic and galvanic corrosion, leading to water purity.

DO NOT USE WITH COMPRESSED AIR OR GASES

Ashirvad pipes pvt. ltd. does not recommend the use of thermoplastic piping products for systems to transfer or store compressed air or gases, or the testing of thermoplastic piping systems with compressed air or gases in above as well as below ground locations, the use of Ashirvad Aqualife in compressed air or gas systems automatically void any warranty and its use against our recommendation is entirely the responsibility and liability of the installer.

WARRANTY ON ASHIRVAD PRODUCTS NOT APPLICABLE INCASE OF USE IN COMBINATION WITH ANY OTHER BRAND / MAKE OF PIPES & FITTINGS.
