## We Innovate to Create Value

At Ashirvad, we make life flow through innovative and quality products. For over 20 years, we are creating benchmarks through our innovative and quality product in the field of Building, Agriculture, Infrastructure and Industrial. We provide end-to-end smart water management solutions from Tank to Tap.

We understand, our customers need, develop smart simple sustainable products to give customers best user experience in terms of functionality and practicality. We design our products after understanding the consumer pain point.

Due to rapid urbanization, the concept of high-rise or multistory buildings is the new norm in metro and non-metro cities. But one of the major challenge which remains same for Indians is a hygienic and congested bathrooms. Bathrooms play an integral part in the health-hygiene factor. To solve this problem Ashirvad brings to you “Ashirvad SLIMPRO-Concealed Cistern”. Ashirvad

SLIMPRO is created to add space, convenience, and hygiene to your bathrooms.

Ashirvad SLIMPRO flush plates have anti-microbial\* coating which ensures hygiene after every use. We understand water saving is an important aspect today hence our concealed cistern are WEPI certified also for select range.

(\*Tested as per global standards of JIS Z2801: 2010)

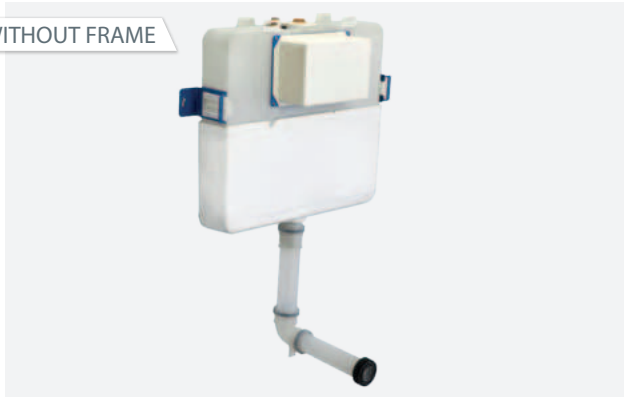

## The Science behind the Technology

### Health & Hygiene

We understand & care for our consumers at every possible touch point whether it is our Ashirvad Pure water storage tank with inner anti-bacterial & anti-viral layer or our pipes with anti-microbial properties. Our entire range of flush plates comes with unique chrome plating and 99% anti-microbial coating for hygienic touch. Tested and validated as per JIS Z2801: 2010 for anti-microbial.
