FOAM LAYER

Hot Outside. Cool inside.

Summer temperatures now won't affect your water's temperature. Introducing Ashirvad Weatherguard. A water tank built with a unique foam layer that keeps water cool even in 45°C*.

How does it work?

Ashirvad WeatherGuard comes with an additional foam layer which helps to keep the water temperature lower between 13°C to 15°C, even in temperatures as high as 45°C outside.

Foam layer provides insulation from ambient temperature

Anti-bacterial layer with "Nano-Silver" technology

Made from 100% Virgin Plastic

ANTI-VIRAL
compliance as per
ISO 21702:2019

ANTI-ALGAE
compliance as per
ASTM G-29

ANTI-FUNGAL
compliance as per
ASTM G21-2015

Guaranteed actual storage volume as per capacity

Threaded lid with dual layer

Food safe material

No heavy metals used

Every effort has been made to ensure factual accuracy and believed to be accurate and reliable, however no responsibility can be accepted for any error, omissions or incorrect assumptions. Ashirvad reserves the right to make any necessary specification changes without any prior notice. Features will vary model to model. *For detailed term and conditions please refer warranty and installation card. *Lab tests have revealed that Ashirvad four-layer water tank can help to maintain a temperature lower by 13°C to 15°C between stored water and the ambient temperature of 45°C. The foam layer imparts insulating effect to the tank which helps to keep the temperature of stored water lower than the ambient in summers. *Terms and conditions apply. *For more details, please visit www.ashirvad.com. *Tested and validated by accredited third party lab.
